UPHOLDING THE HERITAGE OF QUALITY SINCE 1926

The humble origins of a successful business conglomerate - KLUDI dates back to 1926, where the concept of quality and sustainable bath fittings for the users' comfort and convenience took shape in a production workshop in Germany. The idea evolved from KLUDI's core mission, to make every household innovative and add value to the lives of people in the community.

KLUDI are the experts in bathroom and kitchen fittings and total bathroom solutions. With over 90 years of experience in the design of fittings, the design experts blend shape and function to create a spectrum of precision-perfect products. KLUDI's exclusive product portfolio of fittings is unique in design and conserves water & energy. Reputed for their aesthetic styles, functionality and sustainable features, KLUDI fittings continue to be a source of inspiration even today.

To cater to the quality-conscious customers in the United Arab Emirates and the Middle East and their requirements for elegant and functional quality fittings, RAK Ceramics, the world's largest ceramic manufacturer in collaboration with KLUDI Germany, the world-leaders in mixers, showers and accessories established KLUDI RAK in the Emirate of Ras Al Khaimah.

Together with KLUDI RAK's 10 years of regional expertise, skilled craftsmen, a manufacturing unit equipped with advanced European technology and backed by KLUDI's 9 decades of expertise in kitchen and bath fittings, KLUDI RAK has all the strengths combined to design and manufacture premium water-efficient products that are durable and consistent in quality.

KLUDI RAK fittings are the preferred product of choice for commercial, industrial and residential sectors across UAE. Moreover are recommended by architects, interior decorators and project planners. KLUDI RAK is thus poised to offer top-notch kitchen and bathroom products to its valued customers in UAE and the Middle East.

GERMAN FAUCETS
MADE IN UAE

PERFECTING PRECISION FITTINGS THROUGH TECHNOLOGY

KLUDI RAK, the specialist in bath and kitchen fittings, it's a brand that is synonymous with quality. The impressive product range comprising of precision-perfect fittings are designed using the latest in European technology. Backed by the world-leaders, KLUDI Germany, with over 90 years of experience in manufacturing world-class kitchen and bathroom fittings, KLUDI RAK is in a position to create a spectrum of best sellers with exceptional features and a quality that lasts a lifetime.

Functionality and ergonomics are the keys to designing KLUDI RAK bath and kitchen masterpieces. Our designers have the required expertise to design and manufacture fittings that blend form and function by using top grade material imported from Europe. The environment-friendly products crafted by our talented craftsmen are unique and helps save water. In addition comply with the international standards for quality and aesthetics.

By following a customer-centric approach and exchanging ideas with its valued customers across the globe help KLUDI RAK professionals stay up-to-date with the current market trends and match the ever-changing consumer needs.

With a portfolio of superior technology based water-efficient products, KLUDI RAK is positioned to be one of the trendsetters that redefine the concept of kitchen and bath fittings in the Middle East and across the globe.

- 1** KLUDI RAK uses Brass as per European Drinking water standard.

كلودي راك تستخدم نحاس تصنع الخلاطات وفقاً لمعايير مياه الشرب الأوروبية

- 2** KLUDI RAK maintains a 3-layer plating thickness of Semi bright Nickel, bright Nickel and Chrome - measuring minimum 12.3 microns

كلودي راك تحافظ على ثلاث طبقات من طلاء النيكل الشبه لامع , واللامع وطبقة من الكروم بهدف الحصول على سماكة 12.3 ميكرون من الطلاء

- 3** KLUDI RAK LONG LIFE TECHNOLOGY These special Ceramic cartridges have an effortless movement that fulfill the endurance tests under EN817 with 210,000 cycles without any damage

كلودي راك والتكنولوجيا الطويلة الأمد خراطيش المياه الخاصة مع اقراص سيراميك لديها حركة جهد التي تلبية اختبارات التحمل تحت EN817 مع 210.000 دورة دون أي عطل

- 4** Plastic parts which are in accordance to KTW/W270, WRAS, KIWA and DVGW approvals

كلودي راك تستخدم فقط قطع بلاستيكية آمنة وفقاً لموافقات DVGW/KIWA/WRAS/W270/KTW

- 5** The aerator innovative solutions for drinking water regulate flow rates and protect water from contamination and reduce water consumption

حلول مبتكرة لمياه الشرب عن طريق جهاز التهوية وتنظيم معدلات التدفق وحماية المياه من التلوث والحد من استهلاك المياه

- 6** The Flex Hose outer stainless steel braiding and the inside Pex Tube ensure hygiene safely conforming with DVGW KIWA/ CSTB/WRAS certificates

كلودي راك تستخدم خراطيم مياه مرنة من الستانلس استيل مقاومة للصدأ لضمان النظافة بمطابقة DVGW/KIWA/CSTB/WRAS

QUALITY REFLECTS IN EVERY DETAIL

Makers of beautifully crafted, high quality kitchen and bathroom products KLUDI RAK is a brand to reckon with. Strategically located in the Emirate of Ras Al Khaimah, KLUDI RAK upholds the brand promise by consistently delivering top-grade products to its loyal customers.

Accredited with various certifications for quality, conformity and promoting sustainability, the state-of-the-art manufacturing plant of KLUDI RAK integrates the latest European technical innovations in its development process, while adhering to sustainable practices by creating energy and water saving products, besides having superior quality raw materials procured from Europe to maintain consistency in the quality of the products at all times; Ultimately, the finest range of bathroom and products are directly supplied from the KLUDI RAK factory across GCC, the Middle East, Africa and Indian subcontinent.

**EVERYBODY
EVERY DAY
IN EVERY
LITTLE WAY**

WE STAND FOR WATER SAVING

Water is one of the most valuable and scarce resources that we have. At KLUDI RAK we believe in maintaining an ecological balance and hence we use only the best and highest quality water saving fittings that conserve water and energy.

FAUCET AERATOR

KLUDI RAK uses a Pressure Compensating Aerator which is a key component of every faucet and is integrated into the spout at the front which forms the water jet. Usage of Aerators makes it possible to **SAVE WATER up to 60%** which limits the flow of water to a considerable level and also avoids splashing.

S- POINTER AERATOR

KLUDI RAK fittings can be incorporated with “S” pointer aerators that make it possible to adjust the jet angle directly on the fitting itself. The advantage is that individual adjustments can be made to the jet to suit every form of wash basin, be it upwards to a shallow outlet angle or downwards in a steeper angle.

FLOW REGULATOR

KLUDI RAK fittings can be incorporated with various types of flow regulators, which maintains a minimal and continual flow rate regardless of pressure fluctuations. Steady distribution of water is an essential requirement in commercial and institutional installations.

ATOMIZER TRIPLE JET-AERATOR

KLUDI RAK fittings can be incorporated with ATOMIZER Triple Jet-Aerators, which is integrated into the spout at the front and forms the water jet. Usage of this makes it possible to achieve **WATER SAVING of 90%**.

ADDED ADVANTAGES

- Maximum lime resistance.
- Maximum lifespan.
- Perfect stream quality even under different flow conditions.
- Very low noise level.
- Damage proof: unlike Conventional wire mesh screens, it can't be crushed.
- Integrated anti clogging dome screen which filters sediments and particles.
- Constant flow rate as per requirements can be achieved irrespective of input pressure.

SWING

SWING

ERGONOMICALLY DESIGNED FOR CONVENIENCE

The Swing series is a symbolic design representing a figure that extends its two arms to embrace and contact. This dynamic and uniquely shaped series is designed for the users' convenience and comfort.

The Swing model releases water similar to a cascade effect. And is a reflection of quality, functionality & distinctiveness at its best.

PASSION

PASSION

CLASSIC STYLE WITH ENHANCED FLEXIBILITY

A flawless synergy of geometric shapes that blends with all bathroom styles, mixers from the Passion is designed to offer maximum flexibility. The shower fittings have a sleek and flat hand-held shower that releases gentle & steady flow of water similar to the falling rain. Furthermore showering becomes an invigorating experience. The Kitchen mixer comes with a spout that can revolve 360 degrees, creating ample space within the sink.

A must have product in both bathroom and kitchen, the Passion category of mixers is designed with the user convenience in mind.

CARE INSTRUCTIONS

Dear Customer,

Congratulations on choosing the best bathroom fittings for your needs!

In order to ensure the long life of your Kludi RAK products, please follow the enlisted care and cleaning instructions.

- Clean the surface to prevent accumulation of dirt and lime scale
- For daily cleaning use neutral cleaners and water
- For removing strong lime scale use cleaners with citric acid base
- Use cleaning agents specially developed for fittings
- Cleaning sprays should first be sprayed on a soft cloth and then the cloth should be used to clean the fittings. Do not spray them directly on the surface of the fitting.
- The amount of cleaning agent used should be just sufficient to remove the dirt and lime scale. Do not use excessive quantities. Also, do not let the cleaning agent stay on the surface for longer time than necessary.
- After using the cleaning agent, rinse the fitting with sufficient water to remove it and then polish with a soft cloth.

The chrome plating on the surface of the fitting is a result of a lot of chemical reactions. Strong cleaners and bleach can alter the effects of these reactions and cause significant damage to the surface and void the warranty. In any case do not use any of the following to clean the fittings:

- Abrasive cleaning materials, pads, scourers etc.
- Cleaning agents with volatile acids like hydrochloric or acetic acid
- Scouring powders or abrasive cleaning fluids
- Cleaning agents containing bleach such as Clorox.

Cleaning the fittings after each use helps retain their value!
